

FOR IMMEDIATE RELEASE

RPC Supports World Cannabis Congress in Saint John, NB

January 30, 2018, Fredericton, NB - RPC, a leading provider of medical cannabis testing in Canada, is pleased to announce its support as a silver sponsor for the World Cannabis Congress scheduled to take place in Saint John, NB from June 10 - 12, 2018.

The three-day event, presented by [Civilized](#) and supported by Opportunities New Brunswick (ONB), will bring together global industry leaders to discuss business, policy, and innovation surrounding cannabis. World Cannabis Congress will welcome over 350 delegates from countries around the world including Brazil, Germany, Israel, Spain, and Uruguay, among others.

“RPC is proud to be leader in cannabis testing and proud to help welcome other leaders in the industry to New Brunswick,” says Eric Cook, RPC, CEO.

This event promises to be the cannabis industry event you don't want to miss with expert and celebrity speakers, major industry announcements, and the opportunity to make connections and do business. For more information on this event, visit www.worldcannabiscongress.com.

About RPC

RPC is a research and technology organization (RTO) offering contract R&D and technical services. RPC's scientists, engineers and technologists are supported by world-class analytical laboratories and pilot facilities. RPC offers comprehensive analytical services to licensed producers of medicinal marijuana under the Access to Cannabis for Medical Purposes Regulations. We also offer applied research services helping clients with product and process development, and improved productivity.
